

EASTER FUN CHATTER BOX.

Download and follow instructions under our example on page two

www.brainsize.com for more things to do

Instructions:

- 1/ Print out the template then cut around the outside of the square
 - 2/ Fold in half forward along the 2 thick black lines, then in half again along the other thick black line
 - 3/ Open out then fold over each corner on the blue lines so the corners meet in the middle on blank side of template
 - 4/ Turn over so the numbered triangles are folded into the middle
 - 5/ You should be able to see all the coloured squares
 - 6/ slide your thumbs and pointers under the coloured squares so the square closes all the numbers into the middle and are hidden.
- Ready now to go. Say a rhyme or tongue twister as you open and shut the chatter box with your fingers. Have someone choose a number. Open up to see what is said underneath.
- Be creative and make many beautiful chatterboxes for your family and friends. Remember to keep the messages happy and positive or hold an activity people can do safely.
